PROFESSIONAL SUMMARY

Full Stack Developer and BCA graduate with strong fundamentals in developing powerful web applications using PHP, MySQL, JavaScript, and modern frontend frameworks such as React.js, along with Java and Spring Boot. Built an e-commerce application with a PHP and MySQL backend, REST API integration, and Razorpay payments, and a safety application with real-time SOS and live location features. Skilled in writing clean code, optimizing performance, integrating APIs, and debugging issues, with front-end internship experience collaborating with team members and UI/UX designers in an engineering team. Passionate about coding and eager to contribute as a Full Stack Developer.

TECHNICAL SKILLS

Programming Languages: PHP, Java, JavaScript, Dart

Frontend: HTML5, CSS3, JavaScript, React JS, Bootstrap

Backend: PHP, Spring Boot, Node JS, REST APIs

Database: MySQL, Firebase (Cloud Firestore)

Concepts: Object-Oriented Programming (OOPs), Programming Fundamentals, Software Development Life Cycle (SDLC), Web Application Development, API Integration, Debugging, Clean Code

EDUCATION

Bachelor of Computer Applications

2022 – 2025

Dhanalakshmi Srinivasan Arts & Science College, Mamallapuram, Chennai

Higher Secondary – Accounts & Computer Application

2021 – 2022

St. Joseph's Higher Secondary School, Vettuvankeni, Chennai

PROJECTS

Sumathi's Style – E-Commerce Application

Technologies: PHP, MySQL, REST API, Flutter, Dart, Firebase, Cloud Firestore, Razorpay

- Designed and developed a full stack e-commerce application for a tailoring boutique with a Flutter front end and a PHP and MySQL backend using REST APIs.
- Built product listings, category-based filtering, product detail pages, shopping cart, and wishlist functionalities.
- Developed a custom order form with voice-note support and an admin dashboard for managing orders and inventory.
- Integrated Firebase services for application data management and connectivity.
- Integrated Razorpay payment gateway to support secure online checkout.

Protecta – Personal Safety Application (Final Year Project)

Technologies: Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Collaborated with a team to design and develop a personal safety application for real-time emergency assistance.
- Implemented SOS alerts, live location sharing, siren activation, and rescue service connectivity.
- Tested application features, identified technical issues, and debugged errors to improve functionality.
- Applied analytical and problem-solving skills to troubleshoot application issues and support reliable performance.

INTERNSHIP

Front-End Developer Intern – Seval Software Solutions, Chennai | January 2025

- Developed and maintained web application interfaces using HTML, CSS, and JavaScript.
- Collaborated with team members to implement front-end features and support application development tasks.
- Identified, tested, and debugged interface issues to improve functionality and user experience.

CERTIFICATIONS

Certified Java Full Stack Developer – Green's Technology

- Completed practical training in Java, HTML, CSS, JavaScript, React.js, Spring Boot, Bootstrap, and SQL.
- Applied programming concepts to develop application projects and strengthen full-stack development skills.
- Practiced collaborative development, debugging, and problem-solving through project-based exercises.
